

Cascada, Shut Up

Verse 1:

Your looking so frustrating
Girls will make you trick
You find out what I'm feeling
Get it out play tricks

Bridge:

Addicted to my body
You dreamed off at the end
After all, why don't you understand

Chorus:

Shut up get outta here!
Don't cry and dry these tears
I never thought of me and you my dear
Shut up get outta here!
You've gotta lose your fear
I know your mind will cheer you up my dear
Shut up get outta here!
Why don't you disappear?
I never thought of me and you my dear...
Here We go Again!

Verse 2:

Me a nice cold angel
And You the fool for love
You look like George the second
You were not good enough

Bridge
