

Case, I Gotcha

[1]

Don't worry 'bout a thing
My love is on the way
Don't worry 'bout a thing
Cuz I gotcha babe

[Repeat 1]

Girl you know that I am someone you can count on
When things get rough, when things get tough
I'll be there when no one else is around
So don't ever let me down
And I don't want to see you frown

[Repeat 1]

[Repeat 1]

Always I'll be with you
Through the thick and thin
And all the other things you feel within
Always I will try
So now I think it's time
And now I'm gonna make you mine

Girl you know that I am someone you can count on
When things get rough, when things get down
I don't want to fuss and fight
I just want to make it right
Loving you is all I wanna do baby

[Repeat 1]

[Repeat 1]

[Repeat 1]

[Repeat 1]

Oh, hey
I don't want to fuss and fight
I just want to make it right
Aaaah, oh, see when no one else is there
I'll be standing by your side

[Repeat 1 until fade]
