Girl i like then your body goes boom boom boom  
You ain't scared make it boom boom boom  
Go up down babe boom boom boom  
Now go south baby boom boom boom  
And I like then your body goes boom boom boom  
You ain't scared make it boom boom boom  
I'm about to take you to my room room room  
All night baby boom boom boom  
I saw you walk under the spot light  
from your head to your toes you do it right  
and i just wanna let you know  
that i'm trying to take you home make you moan  
See you got the moves on the dance floor  
And they tell me what else you got in store  
And your hips can't lie to me no way  
And you are sexy and everywhere i could say  
You make the room shake and i don't feel save  
you got me feeling like i'm flirting with an earth quake  
you know you got it all that's why you like to play  
You think it's funny and you make all the fellas say

You ain't scared make it boom boom boom  
Go up down baby boom boom boom  
Now go south baby boom boom boom
