took time
to get you
took time
to let you know
tried to forget you
you're unforgettable

you
24 hours in a day
I think about you
more than 24 times
tryna not thinking about you
but you've been on my
mind
I got nothing for you but
time
you always and up by my
side
through loving you
I needed time
I needed time
and now I'm like

can I hit it like that?
like this, like that
you know
can I kiss it like that
like this, like that
remember that

heaven
it feels like that
I won't lie to you
no, no

can I hit it like that?
I be waiting for you
you, you, you
you, you, you
you, you, you

I be waiting for you

took tie to find you
you left to go away
must I remember you
feelings don't go astray
no
