

# Caskey, Off The Leash

I keep money on my mind  
being real is an endangered species  
I keep it hunted(hunnid) all the time  
put some shoes on all my hustles now they running thru my mind  
keep on buying watches who said I was running out of time?

lets go  
my hustle on Jeff Bezos  
bought some stock in amazon and flew out to Barbados  
homie I been lit no jumper cables  
I lost my halo  
told em super size my fries  
these no small potatoes  
y'all stuck on tater tots  
can't relate cuz I get paid alot  
should start an only fans  
I fuck my girl so good they'd pay to watch  
stock price going up just like everything  
they said they'd come and help me and they never came

this shit so off the leash aint too much that you dogs could offer me  
man I been a problem I can't get these benjis off of me  
everything I did somebody said I couldn't possibly  
last person went against me that shit ended awfully

I like to turn up  
homie gotta put on for yourself  
and I burn blunts  
doctor say its too good for my health  
I been smoking gas having sex and building up my wealth

all that hard work I done put in  
people say "you lucky B"  
Lucky that when y'all was partying I was hustling  
all those years of grinding in the dark  
and now the wave too big to fuck with it  
and everybody wanna know what's up with it

supplement my whole income and not from selling suppliments  
bit down on that flower and she turned into a succulent
