

Cassie, Just One Nite

(feat. R-Les)

Cassie, Next Selection, R-Les

(Cassie)

Just one night to be with you again,
cause I miss the way
That it felt when we made love oh...
Just one night to be with you again,
cause I miss the way
Miss the way we made love.

I ran across a picture, a picture of us, I admit I almost cried oh.....
It made me realize how much I miss ya
how my life ain't been the same since you're gone,
Left on my own--left with an empty space
can't hide everything reminds me of you,
Next thing I know that's when I see your face.

And I know all I need,

Just one night to be with you again,
cause I miss the way
that it felt when we made love,
Just one night to be with you again,
Cause I miss the way...miss the way we made love.

Uh I hope that you've been,
That you've been missing, missing me the way I miss you,
Its so confusing my mind I'm losing, and I hide it everyday,
Left on my own--left with an empty space
can't hide everything reminds me of you,
Next thing know that's when I see your face.

And I...And I know all I need is,

Just one night to be with you again,
cause I miss the way
that it felt when we made love love love love
Just one night to be with you again,
Cause I miss the way miss the way we...made love

(R-Les)

Listen I miss you I'm scared I'll be real with it
Nights get cold but I deal wit it
Me in the club with an ill fitted
I know u feel me though uh...
can't sleep at all in my bed right
You can try today get my head right,
It's like I'm trapped in some head lights I can't make moves,
I'm thinking back to the days we were so tight
No lights make love right all night
I'm having ill flashbacks like a strobe light
I know ya feel me girl. Huh.....
See I understand what you run for
So your eyes don't cry but you're unsure
All u really need is one more just one more
I'll give it to ya!!

Just one night to be with you (One night to be with you) again,
Cause I miss the way
I miss the way we made love love love
Just one night to be with you again,
Cause I miss the way miss

The way we...made love
Yeah uh haahhhhhhhhhh whoooo ahhhhh
