

# Cassie, Not With You

I'd give anything,  
go anywhere when it comes to your love,  
but the question that's burning in my heart is whether it's strong enough.  
If you want me to stay, there's something we gotta do.  
I need to see years of us,  
I've got to trust  
if im not with you  
Hey

[chorus]  
Ain't nowhere i belong,  
if im not with you  
Ain't no place I call home,  
if im not with you  
constantly on the phone,  
if im not with you  
if im not with you  
if im not with you  
Dont know if i can trust  
if im not with with you  
all of these questions cuz  
if im not with you  
I hope your expectin this  
if im not with you  
if im not with you babay

and i love it when its just the 2 of layin around.  
and i cant help,  
i want u to myself,  
the feelins getting stronger now,  
so i hope you feel the way i feel  
I need to see years of us,  
I've got to trust,  
If I'm not with you

[chorus]

I hope your not disrespectin me,  
Im hopin I'm everything u need  
and that all u wish for,  
you'll find in me.  
It's the way that you show,  
show you care,  
show that you love.  
When your not with me,  
aint nowhere that i belong.
