

Cast, Guiding Star

Get up, Get up, Get up, Get up
Here comes my guiding star
To take me home
I've travelled lands afar
We blindly roam
We spread our wings
In search of truth
And all it brings
We got a glimpse of a forgotten dream
And we want it to pass to you
Get up, Get up, Get up, Get up

Two thousand years apart
And still remain
You carve into my heart
A sacred name
We spread our wings
In search of truth
And all it brings
We got a glimpse of a forgotten dream
And we want it to pass to you
Get up, Get up, Get up, Get up
A glimpse of a forgotten dream
Here comes my guiding star
To take me home
I've travelled lands afar
We blindly roam
We spread our wings
In search of truth
And all it brings
We got a glimpse of a forgotten dream
And we want it to pass to you
Get up, Get up, Get up, Get up
