

Cast, Never Gonna Tell You What To Do

You can paint my face
Features you disguise
The masquerade takes place
Before your very eyes
Mirror me the way, I mirror you
Imitate the things, that you do
I can change my look, I'll dress up just like you (yeah)
Easily mistook, appearing like I do
Mirror me the way, I mirror you
Imitate the things, that we do

Chorus:

Isn't many things that are free
This one comes to me, I take it gracefully
Nothing that I say or I do
Change a thing for you, it's you who pushes through

(Musical Interlude)

Now I'm ten feet tall, the world looks oh so small
But I can see it all, just where I'm standing from
And though a man must fall, and world is where he'll land,
And when a man don't fly, this world is where he'll stand

Mirror me the way, I mirror you.

Imitate the things, that you do

Chorus:

(Musical Interlude)

Nothing that I say or I do (repeat x5)
