

# Casting Pearls, Wastin' Time

Let's take a ride through the country side  
Cool breeze electric pale blue skies  
I've been given' keys to this paradise  
I'm livin' large it's a good good life  
Here we are just wastin' time  
I can not do one thing to save my life  
I must be out of my head  
Must be out of my head tonight wastin' time  
Let's build a tower up to the sky  
So close but yet so far behind  
Can't see where you're goin' when  
You're walkin' blind you're livin' lies man just open your eyes  
Here we are just wastin' time  
You can not do one thing to save your life  
You must be out of your head must be out of your head tonight wastin' time  
Here and now's where I want to be I know there's something right with me I'm an individual with lib  
This is the life someone died to give me  
Here we are still wastin' time  
I can not do one thing to save my life  
I must be out of my head must be out of my head tonight wastin' time
