

Casualties, Tragedy

You got your life cut short
No chance for what you wanted to do
It's cause you're marked for death
Didn't know you were born to lose
You didn't see it coming
You couldn't see it coming
You couldn't start running
You should have started running
Born to lose - born to die too soon
Born to lose - life cut short
The devil's looking for you
Born to lose - born to die too soon
Born to die - life cut short
The devil's looking for you
Punk Rock Tragedy - Oh Oh
You live your life too fast
Doing too many drugs and booze
You didn't think you'd die
But now you die too soon
You got your life cut short
No chance for what you wanted to do
It's cause you're marked for death
Didn't know you were born to lose
What you gonna do
Your end had come too soon
With music in your heart
You exploded from the start
The future is looking up
Now all that's left is dust
What are we gonna do
Your end had come too fucking soon
