

Cat Burns, Best mate

Isn't it strange
That I thought you couldn't be replaced
Isn't it strange
That we couldn't go without days without saying hey
Oh isn't it strange
That when she came along
You weren't the same
You weren't the same

So tell me what has changed
I feel like you don't need me the same way
I feel like I'm losing my best mate
I feel like I'm losing my best mate

Is this how it ends
Is this how it ends
Will we ever be friends again
Is this how it ends
Is this how it ends
Will we ever be friends again
(Will we ever be friends again)

I thought we were strong, but I was wrong
I thought we were strong, but I was wrong
I thought we were strong, but I was wrong
I thought we were strong

Isn't it strange (Oh isn't it strange)
How I was always there for you (How I)
No matter what
I was always there for you
No matter what
And isn't it strange (Oh isn't it strange)
When I needed you the most, I couldn't see your face (Ooh)
I couldn't see your face
It's when she came along, you weren't the same (You weren't the same)
Oh when she came along, you weren't the same (You weren't the same)

So tell me what has changed
I feel like you don't need me the same way
I feel like I'm losing my best mate
Well maybe I'm losing my best mate

Is this how it ends
Is this how it ends
Will we ever be friends again
Is this how it ends
Is this how it ends
Will we ever be friends again
(Will we ever be friends again)

I thought we were strong, but I was wrong
I thought we were strong, but I was wrong
I thought we were strong, but I was wrong
I thought we were strong (Ooh)

So I think you know what I'm about to say
I don't think we can be friends again (Friends again)
Cause too much has happened for me to forgive and forget
So I think that this is the end
Cause boy everything has changed (Everything has changed)
I feel like I don't need you the same way

Well maybe I'm losing my best mate

No, I think that I've lost my best mate
Oh
