

Cat Stevens, It's A Super (dupa) Life

See the funny little people running 'round in circles
Throwing bombs as they do
See the funny side of it
They're heading straight for you
See the funny little holes they're making
Looking like craters on the moon
See the funny side of it
We'll be living in them soon
But it's a super life
A super dupa dupa life we live
Yes, it's a super life
A super dupa dupa life we live
But it's getting pretty near the end
'Cause with a super life
You will borrow everything you lend
So, there's never anything to spend
You're broke, you dope you
See the funny little flying saucers we found
Painted up just for you
See the funny man inside
His color matches too
See the silly little camera he loves
Shooting pictures with all day
See the funny side of it
His friends are on their way

But it's a super life
A super dupa dupa life we live
Yes, it's a super life
A super dupa dupa life we live
But it's getting pretty near the end
'Cause with a super life
You will borrow everything you lend
So, there's never anything to spend
You're broke, you dope, you
But it's a super life
A super dupa dupa life we live
Yes, it's a super life
A super dupa dupa life we live
Baby it's a super life
A super dupa dupa life we live
Yes, it's a super life
A super dupa dupa life we live
Baby it's a super life
A super dupa dupa life we live
Yes, it's a super life
A super dupa dupa life we live
Baby it's a super life
A super
