

Catalepsy, Whispers

If you're there comforth and show yourself
Why let the millions die and burn in hell?
Because they cant belive in your so called religion
Repent now and drown yourself
I'm still here remaining unanwsered
The prayers spread still stand unheard
I'm now standing and waiting for an anwser(x2)
If you say he's real then why can't he hear(x4)
Theres something more than what you want it to be
There something more than you said it would be
Take their minds, mend them anyway you please
How can i find comfort in a god that judges me?
GET ON YOU FUCKING KNEES, OR BURN IN HELL (x2)
This is what they teach our children,
They listen and worship your god
This is not the way to worship
To consume the minds of our youth
IF HE DIED FOR YOUR SINS WHERE THE FUCK IS HE NOW(x4)
Where the fuck is he now?
