## Catatonia, Dazed Beautiful Bruised

I've got my work cut out with you You tore bits out of me Your carpet burns and bruises blue And there for all to see

But I can tell you've been through hell Finally you wear it well It's an accessory It's time to change your uniform And hand it on to me, to me

And I dream one day I'll find
The one who lives inside my mind
They feel the same way too
We've all been used
Dazed, beautiful and bruised
Dazed, beautiful and bruised

And blame is not a one way street The widest avenue

But cause me grief And my beliefs is harm will come to you

Between the lines I think you'll find Lessons learnedfrom alleys blind Beauty can turn sour So recognise through all the lies The her of the hour, the hour

And I dream one day I find
The one who lives inside my mind
They feel the same way too
We've all been used
Dazed, beautiful and bruised

When there's nothing, nothing left to lose Dazed, beautiful and bruised

Dazed
