

# Catatonia, You've Got A Lot To Answer For

Catatonia

Way Beyond Blue

You've Got A Lot To Answer For

You've got a lot to answer for, but baby i love you. (x2)

If it turns to blue, what are we gonna do

If it stays on white, will it be alright.

If it all turns sour, it's too late

The csa are bound to find you soon.

If you wanna talk, then talk about it

You could talk all night if you wanted

You could talk all night and day, but

I'd think by now you know exactly

How to end up here

Are you looking for the sun?

Are you looking out for me? [walk down an a string from c to g]

You've got a lot to answer for, but baby i love you. (x2)

You said i got the looks

Well i got the means

Let's get together, mix each other's genes

Let's get together, mix each other's genes

Can't buy myself a future,

My dna will be past it's sell by date

Are you looking for a son? [walk down an a string from c to g]

C

Are you holding out for meeeeeeeeeeeeeeeee?
