

Catch, Walk On Water

I know that what you feel is real
And that your love will heal
It's all, it's all a matter of time

And baby I feel that what we had was good
Only misunderstood
It's all, it's all a twisted faith

(CHORUS:)

Baby you can walk on water
Baby you can fly like a bird
You can walk through fire without even getting hurt
Baby you can run like the devil
You can light a ten feet candle
Love is something you and me could never handle

I think that if we tried again
You'd still be just a friend
Sorry, it's just the way I am

And baby I feel that if you only knew
What you're supposed to do
You would make it through in time

(CHORUS X2)

Baby you can walk on water
