

# Catherine Feeny, Please Don't Leave Me In Winter

Please don't leave me in winter  
The trees are bare and the sky is cold  
You can leave me in summer  
When the sun is gold

Please don't leave me in springtime  
When the rain falls without end  
You can wait for the flowers to bloom  
You can leave me then

Don't leave me in summer  
Cause it's too hot to cry  
And the bees are lovely  
When that grass, when that grass is high

If you go in autumn as the days fall short  
The nights loom long  
When the first frostings the ground  
Like a leaf I will be gone
