

# Catherine Wheel, Shallow

You're wasting time  
Time to shake and throw down  
But I can't fight  
You are the one to say goodbye  
And when you shout my mouth is dry  
Only when you try  
Is your shallow water running high  
You know what's inside  
So glad to see  
You take my hand between your knees  
And once inside  
I'll only take the things that shine  
You always said those things were mine  
You only said goodbye  
When your shallow water got too high  
You know what's inside  
Only when you try  
Because your shallow water growing high  
You know what's inside  
You know what's inside  
You know what's inside
