

Catherine Wheel, Tongue Twisted

Tongue tied twisted, steal time to stay
Real song drifted keeps the thorn inside
Tongue tied twisted twist around and creep
Tongue tied twisted keeps the leaf

What are you gonna feel? What are you gonna feel?
Will it fall will it drop, I despise the time
Thought I love to feel the tongue twisted
So pleased to find

Beneath the grass this time, beneath the grass
I know this fear will last
I know this fear will last
I know this fear will last
I know this fear will reach beneath the gutter
The restless I know I know I know

But I love to feel the tongue twisted
