

# Catherine Wheel, Ursa Major Space Station

There's no doubt  
Of the future in my head  
It's all worked out  
I'd hate it to go left unsaid

I'd follow you through time  
'Til it's not worth living  
And if somewhere there's a sign  
That I just don't know  
Then I just won't show you

I'll make it easy  
All the time  
Shake it out  
There's no doubt  
of the purpose in my mind  
It's all worked out  
I'll make it easier to find

I'd follow you through time  
'Til it's not worth living  
And if somewhere there's a sign  
That I just don't know  
Then I just won't show you

I'll make it easy  
All the time  
Shake it out  
It's no crime  
From the middle  
From the sides  
Shake it out  
Shake it out

Ahs  
Ahs

Let's take a rocket ship to Mars  
And anchor off the satellite for lonely hearts  
Such a special place  
In outer space
