

Cathy Dennis, Everybody Get Up

You'll never change
The way I feel inside
In every age
The music will survive
And it'll soothe your soul
So let it take control
Don't talk it down
'cos you don't understand
Don't turn away
As if it's not around
You've got to let it go
Let your desire flow
This things the vibe
That'll open your mind
If you go with it baby
Gotta go with it baby
Everybody get up
And rock your body to the rhythm
Everybody get up
And rock with me tonight
Everybody get up
And rock your body to the rhythm
Everybody get up
And rock with me tonight
Forget the blues
And think of your delight
Your peace of mind
Is all you need inside
And you can fly away
Into your soul mon cher
So turn it up
The groove is here about
Let's get it on
Let's farm this rhythm out
And into overdrive
So high and so alive
This things the vibe
That'll open your mind
If you go with it baby
Gotta go with it baby
Everybody get up
And rock your body to the rhythm
Everybody get up
And rock with me tonight
Everybody get up
And rock your body to the rhythm
Everybody get up
And rock with me tonight
Get up get up get up get up baby
