

# Cathy Dennis, Find The Key To Your Life

In my life I've seen the mystery begin  
And in my time I've felt some wonderful things  
Winds will change brining us something new  
So little time still there's so much we can do  
So don't leave it too late (don't leave it)  
Or you'll be paying when they start saying  
Oh where did the time go  
Oh where did the time go  
Find the key to your life  
And the world will be yours to befriend  
Find the key to your life  
And the world will be yours to befriend  
In my life I've seen the mystery begin  
And in my time I've felt some wonderful things  
No one knows just what the future will bring  
In your life you can be all that you dream  
But don't leave it too late (don't leave it)  
'Cos life won't wait for the good times  
Don't cry in the rain (believe it)  
Or you'll be payin when they start saying  
Oh where did the time go  
Oh where did the time go  
Find the key to your life  
And the world will be yours to befriend  
Find the key to your life  
And the world will be yours to befriend  
No, no, don't leave it too late  
No, no, don't leave it too late  
No, no, don't leave it too late  
No, no, don't leave it too late  
Find the key to your life  
And the world will be yours to befriend  
Find the key to your life  
And the world will be yours to befriend
