

Cathy Dennis, Got To Get Your Love

We've been talkin 'bout this thing for far too long
Watching the world go by
Afraid that one of us would button up
and change their mind
But still you know we've gotta try
Won't you ever think of asking me to be your girl
Or making love to me
Better make your move
Maybe then I'll start to show how I really feel
Got to get a little bit of your love baby
Got to get a little bit of your love baby
Repeat 1st verse
Got to get a little bit of your love baby
Got to get a little bit of your love baby
There'll never be another all my life
Still I keep waiting to say that you're mine
There'll never be no-other on my mind
Cos all these things I've been missing
They just keep me wishing
Just a little bit
Just a little bit yeh
Got to get a little bit of your love baby
Got to get a little bit of your love baby
