

Cathy Dennis, MoveTo This

The way that you walk
The walk of a king
The way that you look you tell me something
The way that I feel, oh baby, I want you
So send me a sign sealed with a kiss
Don't wait in that line
Or you're gonna miss the chance of your life
To do something good, so good
We could be sharing a little bit of heaven
If everything goes our way
If you can do it like I want you do it it baby
Love is on its way
Move to this if you want to be my lover
Move to this if you want to be my everything
Move to this if you want to be discovered
Move to this if you want to be my special thing
The look in your eyes is teasing my heart
Just look at my love, ooh it's raring to start
So send me a sign an capture my soul
We could be sharing a little bit of heaven
If everything goes our way
If you can do it like I want you to do it baby
Love is on it's way
Move to this if you want to be my lover
Move to this if you want to be my everything
Move to this if you want to be discovered
Move to this if you want to be my special thing
We could be sharing a little bit of heaven
If everything goes our way
If you can do it like I want you to do it baby
Love is on its way
Move to this if you want to be my lover
Move to this if you want to be my everything
Move to this if you want to be discovered
Move to this if you want to be my special thing
Move to this if you want to be my lover
Move to this if you want to be my everything
Move to this if you want to be discovered
Move to this if you want to be my special thing
