

Catrien Maxwell, Without You

I'm trying to figure out tonight
Why my world's in black and white
It feels like you just sucked the life
Right out of me

Your smell still lingers in this room
I hope it doesn't fade too soon
'Cause it's the only thing of you
That I have left

And I can't breathe
I can't breathe

Chorus:

When you're gone, I can't see
Through this fog you left with me
And even though you're the worst thing for me
I still never want to be

Without you

Without you

Without you

I pretend that it is true

That if I jump, you will jump too

But that's something you'd never do

I'm lying to myself

And I can't breathe

I can't breathe

Chorus

Without you I'm better off

But without you I'm out of love

There's better fish out in the sea

But you're the only one I want

You're the only one I want

Oh, oh

Chorus 2:

When you're gone, I can't see

Through this fog you left with me

And even though you're the worst thing for me

I still never want to be

Without you, you, you

Without you

And I can't breathe
