

# Caught in the act, We belong together

you've got me hanging  
on your every word  
I feel like I'm going out of my mind  
ever since nature gave you  
the breath of life  
I know that your destiny lies with mine  
you've got me singing loud  
on a rainy day  
with you in my arms I'm staying outside  
we're dealing with what could be the greatest  
love everlasting until the end of time  
like a dream with no end love is what I intend  
a lifetime to spend only with you  
we belong together  
like a blue sky on a summers day  
we belong together oh that's what they say  
how could there be any other way?  
you make me feel like a kid in a  
playground I'm running on air  
and it's a long way down  
impossible to believe it could  
happen at all I cherish the day w  
when you come around  
thought I try to pretend  
love is what I intend  
baby you send me over the edge  
never gonna leave you  
or ever try to deceive you  
and if you believe  
that I mean what I say  
never gonna leave you  
or ever try to deceive you  
I hope that you believe I do
