

Cavalera Conspiracy, Sanctuary

Loaded with dynamite
I don't give a fuck 'cause
Everybody die tonight
Call me negative
Call me what you want
You are nothing
Never was... never will

My hostility
My sanctuary
My reality
My sanctuary.... underground

Coming with the storm
You wish you were never born
Fucked up reality
I'll take your soul and plant my seed

My hostility
My sanctuary
My reality
My sanctuary.... underground

No excuses, no regrets
Everybody die tonight
Everybody die tonight

No divisions, no turning back
Everybody die tonight
Everybody die tonight

Sanctuary, sanctuary
Everybody die tonight
Everybody die tonight...
