

# Cazzette, Beam Me Up

Tonight we'll run away  
Speeding faster than a midnight train  
Somewhere to such a place  
Where the stars come out to light your face  
We'll leave behind a world in darkness  
Go where no one's broken hearted  
Take off without a trace  
Neon angels, up and away

Ride my clouds  
I think we're getting closer  
Don't stop now  
Off the ground  
Higher than a supernova  
Don't look down [x4]

Beam me up  
Beam me up  
Beam me up  
Beam me up

Ride my clouds  
I think we're getting closer  
Don't stop now  
Off the ground  
Higher than a supernova  
Don't look down [x2]

After we kissed the sun  
We can burn our names into the sky  
Feel my electric touch  
Taste my supersonic lullaby

Ride my clouds  
I think we're getting closer  
Don't stop now  
Off the ground  
Higher than a supernova  
Don't look down [x4]

Beam me up  
Beam me up  
Beam me up  
Beam me up

Ride my clouds  
I think we're getting closer  
Don't stop now  
Off the ground  
Higher than a supernova  
Don't look down [x2]

Ride my clouds  
I think we're getting closer  
Don't stop now  
Off the ground  
Higher than a supernova  
Don't look down [x2]
