

# Ce Ce Peniston, Inside That I Cried

The talks we had on stormy nights  
I often rushed away  
When you were not in common sight  
I was held by your embrace  
I gaze and see the pain you feel  
To think we had to part  
I didn't feel you loved me  
So I played games with your heart  
It was inside that I cried  
It was inside that I cried  
No long drawn out speeches  
No sad tear solves goodbye  
It was inside that I cried  
It was inside that I cried  
Don't be deceived by what you saw  
It was inside that I cried  
You treated me just like a queen  
For me that wasn't enough  
You showered me with expensive things  
But I found a new love  
Mistakes I made were fatal ones  
Finally I see you cared  
I can't undo what has been done  
Now I need you, and you're not there

It was inside that I cried  
It was inside that I cried  
No long drawn out speeches  
No sad tear solves goodbye  
It was inside that I cried  
It was inside that I cried  
Don't be deceived by what you saw  
It was inside that I cried  
No more prayers to make for tomorrow  
Our time has slipped away  
I feel so helpless  
There's nothing I can do or say  
To make things better  
It was inside that I cried  
It was inside that I cried  
No long drawn out speeches  
No sad tear solves goodbye  
It was inside that I cried for you  
Now you're never coming back for me no more  
Oh baby, I know that I was wrong  
So you left me all alone, don't go  
Don't be deceived by what you saw  
It was inside that I cried
