

CeCe Winans, All That I Need

All that I need is love
You're crying night and day
You wonder how you ever lost your way
Nothing matters, you must survive
Your heart is slowly dying and so you cry
All that I need is love
From the moment I wake, let me feel your embrace
All that I need is love
Hold me closer each day, every step of the way
Like flowers need the rain to live
A bright beginning Lord, the greatest gift You give
You changed my life forever
Lover of my life, I realize
All that I need is love
From the moment I wake, let me feel your embrace
All that I need is love
Hold me closer each day, every step of the way
When the morning comes and the sun rises to the sky
All my troubles will be over and the way made easy
Until then all I need is to know You'll always hear me
When I call out Your name, call out Your name
All that I need is love
From the moment I wake, let me feel your embrace
All that I need is love
Hold me closer each day, every step of the way
All that I need, all that I need is love
From the moment I wake, let me feel your embrace
All that I need, all that I need is love
Hold me closer each day, every step of the way
All that I need is love
