## CeCe Winans, What About You

Everybody's looking for a peace that flows And everybody wants a place to go Nobody wants to kneel and pray So nobody receives results without faith When someone falls along the wayside And everybody knows why Another heart sadly broken Everybody needs someone to love Everybody wants some hand to hold Everybody needs salvation for their soul So what about you? Everybody wants to live life good Does anyone live the way they should It's never too late to turn around 'Cuz everyone lost can be found So when you're feeling so alone Don't think that you can't come home And when you want to be held My arms are open so let me know Everybody needs someone to love Everybody wants some hand to hold Everybody needs salvation for their soul So what about you?
