

# Cee-Lo Green, Horny

I, I'm horny (oh yeah)  
I, I'm horny

I heard a dirty rumor that you were a friend of mine  
I had to set you straight, in fact we're doing the deed  
Your body gives faith to humanity  
I hated all mankind  
Your kiss, the cure to my insanity

Oh, cause you make me horny (I love that mouth)  
You make me horny (and what comes out)  
You make me horny, horny (I'm all about, horny)

I, I'm horny (oh yeah)  
I, I'm horny

Your love is like a tumor, I don't want to be denied  
Your love is like a hunger that a man want to feed  
Your smoking hot without the vanity  
You're my kind of daily grind  
What kiss, a flame in my insanity

Oh, cause you make me horny (I love that mouth)  
You make me horny (ooh, and what comes out)  
You make me horny, horny (I'm all about, horny)  
I'm horny

I, I'm horny (oh yeah)  
I, I'm horny

Your body gives faith to humanity, I hated all mankind  
Your kiss, the cure to my insanity

Oh, cause you make me horny (ooh, I love that mouth)  
You make me horny (and what comes out)  
You make me horny, horny (I'm all about, horny)  
Cause you make me horny  
Cause you make me horny  
You make me horny, horny (I'm all about, horny)

I, I'm horny (oh yeah)  
I, I'm horny
