

CeeLo Green, Doing It All Together

i need, need you
you need me too
that means
we're doing it all together

I am here
you're there
you're kind and fair
that means
we're doing it all together

promises, promises
you just can't promises
then take it away
if you're a liar
then just cause you're beautiful
it's not okay

through wnd and rain
my friend, we've changed
but we still remain
doin' it all together
