

Ceili Rain, Long For You

I know there's water- because I'm thirsty
I know there's food- because I'm hungry
I know there's love- because love is all I wanna do
And I know that you're out there- because I

Long for you

Because I long for you

I know there's air- because I'm breathing

I know there's light- because I'm seeing

I know there's truth- because I believe it to be true

And I know that you're out there- because I

Long for you

Because I long for you

Because I long for you

You know I long for you

I need you to be there- I know you must be there

I know you share what I share

I know you care 'cause I care

I may be wrong- but I ain't never ever seen the proof

So I still believe that you're out there- because I

Long for you

Because I long for you

Because I long for you

You know I long for you
