

# Celesty, Back In Time

As I see the light in the sky  
Memories travel far back in time  
Our journeys among these mountains  
in this land of a thousand tales

Thoughts fly far in my past  
Everything has gone so fast  
Time just flows around me

If I could travel back in time  
Would I try to change my life?  
Or would I do it all the same

Sometimes I wish that I could be there  
Right beside you, guide the way  
Now I'm helpless and I'm waiting  
You have the keys in your hands to save our future

As I see the light in the sky  
Memories travel far back in time  
Our journeys among these mountains  
in this land of a thousand tales

No matter how hard we tried  
He couldn't find the peace of mind  
to stay here in our life's

Now he's travelling away  
there are no more words to say  
I must try to carry on

Sometimes I wish that I could be there  
Right beside you, guide the way  
Now I'm helpless, only waiting  
You have the keys in your hands to destroy our future

As I see the light in the sky  
Memories travel far back in time  
Our journeys among these mountains  
in this land of a thousand tales

As I see the light in the sky  
Memories travel far back in time  
Our journeys among these mountains  
in this land of a thousand tales  
As I see the light in the sky  
Memories travel far back in time  
Our journeys among these mountains  
in this land of a thousand tales
