

Celine Dion, A Song For You

I couldn't live, I couldn't live without your love
For one kiss, well I'd give everything up
There's no words that can describe
What I feel deep inside so I let this song say it all
Then I hope you'll understand
Once you've listened till the end
Heard the music in my head
So before I could forget
I start singing, yeah I was singing
This song for you, just made up the words
Na na na na, ooh yeah
My heart was the melody
So I can sing this song for you
