

Celine Dion, Christmas Eve

Snow falling gently to the ground
'Tis the night before
And in my heart there is no doubt
That this is gonna be
The brightest holiday
'Cause here you are with me
Baby, baby, I can't wait
To spend this special time of year with someone who
Makes me feel the special way that you do
Walkin' with you in a winter's snow
Kissin' underneath the mistletoe
People smiling everywhere we go
It's Christmas Eve and they can see we're in love
Ooh, you make the season bright
With the lights reflected in your eyes
All my dreams are comin' true tonight
It's Christmas Eve and I can see we're in love
We'll stay up late tonight
Decorate the tree
Just look into my eyes
And I will tell you truthfully
That I don't need no Santa Claus
To hear my Christmas wish
I got you in my arms
And what could be a better gift
Than to spend my favorite time of year
With the one I really love so near, Oh Yeeeaahhh
Walkin' with you in a winter's snow (winter snow)
Kissin' underneath the mistletoe (mistletoe)
People smiling everywhere we go
It's Christmas Eve and they can see we're in love
Ooh, you make the season bright
With the lights reflected in your eyes
All my dreams are comin' true tonight
It's Christmas Eve and I can see we're in love
And bells are ringing when I hear you say
We'll do it all again on Christmas Day
I can't wait
Walkin' with you in a winter's snow
Kissin' underneath the mistletoe
People smiling everywhere we go
It's Christmas Eve and they can see we're in love
Ooh, you make the season bright
With the lights reflected in your eyes
All my dreams are comin' true tonight
It's Christmas Eve and I can see we're in love
Walkin' with you in a winter's snow
Kissin' underneath the mistletoe
People smiling everywhere we go
