Celine Dion

Taking Chances

I Got Nothing Left

Anybody ever tell you that you're not whole

A hollow shell of man without a soul

Never ever felt your warmth cause you're always cold

Only thing that makes sense is letting go

Anybody ever tell you that you've got nerve

Treatin' my love like just another word

Tired of giving love to you that you don't deserve

So this is one way of saying it's over

Cause I got nothing left

I got nothing left

I got nothing left

I gave you my best

And you treated it worthless

So I got nothing left

Anybody ever tell you that you're gonna learn

Trust and respect are two things you must earn

When it came to lovin' me you just weren't concerned

You never gave a damn so I guess now it's my turn

Cause I got nothing left

I got nothing left

I got nothing left

I gave you my best

And you treated it worthless

So I got nothing left

So done with you

Maybe we're through

So done with you

Cause I got nothing left

I got nothing left

I got nothing left

I got nothing left

I got nothing left

I gave you my best

And you treated it worthless

So I got nothing left

So done with you

So done with you
