

Celine Dion, Sleep Tight

Now hush, my little one
Don't be afraid, your daddy's right here
It's just a little dream
And now it's gone, there's nothin' to fear
So close your eyes, I'll sing a sweet lullaby
Lay your head close to my heart
And sleep tight, may angels hover over you
They'll spread their wings to keep you safe and warm
The starlight, the heaven's high above you
Will light a path at you to find your way back home
Yes, sleep tight
And now, my sleepy head, your carriage weighs
To take you off to bed
Let go your tiny hands and drift away to a bright enchanted land
I promise you, your sweetest dreams will come true
Now leave this weary world behind
And sleep tight, may angels hover over you
They'll spread their wings to keep you safe and warm
The starlight, the heaven's high above you
Will light a path at you to find your way back home
Yeah, sleep tight
Sleep tight
So close your eyes and wish upon the brightest star
'Cause when you dream, it doesn't matter where you are
Near to me or very far, I'll always be with you
Sleep tight, sleep tight, sleep tight
They'll spread their wings to keep you safe and warm
The starlight, the heaven's high above you
Will light a path at you to find your way
And sleep tight, may angels hover over you
They'll spread their wings to keep you safe and warm
Safe and warm
Safe and warm
I'll keep you safe, safe and warm
And I'll keep you safe, safe and warm
