

Celine Dion, Song For You

Could I live
Could I live
Without your love
For one kiss
Will I give everything up
There's no words
That can describe
What I feel deep inside
So I left this song
Say it all
Then I hope you'll understand
Once you've listen 'til the end
For the music in my head
So before I could forget
I start singing
Yeah, I was singing this song for you
Just made up the words
Putting I love you together
My heart was a melody
So I gotta sing this song for you
