

Celldweller, Fear

Celldweller - Fear

live in the past
I cant move on beyond the pain
I feel no release
I want to find my peace of mind
My fear (loser) - it?s holding me stillborn
My fear (come on) - I'll never be again
(don?t fear)

You stole the innocence
From a child to be no more
Blinded by the silence
Afraid to ever speak a word

Thinking on the times of my demise and
I wish it wasn?t me the victimized
and I dont know
really can't see how I really couldnt kill the mother who violated me
