## Celldweller, Under My Feet (Original Demo)

So this is how it feels to suffer And I had so much to say But it's over now And I'm going down All alone, all alone

I've no guarantees I'll recognize my disease Before my time is gone It's all I've found Can't get the hell off the ground Out from under my feet

Promises and wishes all mean nothing When it's me that I'm speaking to Wanting something Won't mean I will see it through

I don't need to see these visions to remind me that I'm dying from the inside out Wanting you here still means I must do without

I can't criticize your reasons for living When I'm the one missing them Wanting, dreaming That I might find where they come from (Find where they come from)

I dream you I want to Be near you (I can't get up out from under my feet) I've tried to But can't get through I need to (It's all I've found Can't get the hell off the ground Out from under my feet)

So this is how it feels to suffer And you had so much to say But it's over now You're finally going down All alone, all alone
