

Cellophane, I Crave You Gone

She cried her song
While grinning
As the lust
The suffocating love
Love oh no
Love oh no
Now you've gone away
As the lust I crave
I crave
As I drift
The lonely
I'm so numb
Sick from all your joy
Love oh no
Love oh no
Now you've gone away
As the lust I crave
I crave you
Love oh no
Love oh no
Now you've gone away
As the lust I crave
I crave you gone
