

# Centinex, Luciferian Moon

[Music & Lyrics: Schulman]

Haunted by a twilight void  
Into the endlessness they flow  
Tearing up the sacred flames  
Darkness is they rising desire

Destroy - The sunrise glory  
Passion - To the dark one  
Silence - Obey the night sky  
Fire - Luciferian moon prevails

Open the burning gates of hatred  
Unlock the abyss of dying time  
A voice and a twisted illusion  
Enthroned by a stormy inferno

Bleeding lies, flames of fire  
2000 years of chaos  
A demonic mind with chained secrets  
Time to rise the Luciferian moon

Torn from their pure existence  
Feeding the hellbreathing beast  
Infernal everlasting ages  
Closer, caress their soul with blood

Bleeding lies, flames of fire  
2000 years of chaos  
A demonic mind with chained secrets  
Time to rise the Luciferian moon

Fallen delight - The call of the Master  
Serpent's kiss - Misanthropy remains
