

Central Cee, Hate It Or Luv It

Hate it or love it
The underdog's on top
Can't see my guys as much
The block got hot and they want that drop
The music ting just popped
Just in time 'cause spot got hot
Stop dat, start dat, get that wop
Gotta take that risk and collect that

Hate it or love it
We're forced to grow up quick in the hood that I live in
There ain't no kidding
Love and hate a similar ting
You can hate or love me, there ain't no difference
It got hard, we made it work
I thought 'bout winning, you thought 'bout quitting
Somethin' in my mind told me it weren't time to slide
Went back and aborted that mission
Flex got slapped with seven
'Cause he got caught in the kitchen slipping
I held him down and sent some flowers
Round to his missus
When she was tripping
The phone was off
I show man the same love as if the phone was ripping
A lot of man missing as soon as my bro went jail and the O's stopped flipping

Hate it or love it
The underdog's on top
Can't see my guys as much
The block got hot and they want that drop
The music ting just popped
Just in time 'cause spot got hot
Stop dat, start dat, get that wop
Gotta take that risk and collect that gwop

Hate it or love it
The underdog's on top
Can't see my guys as much
The block got hot and they want that drop
The music ting just popped
Just in time 'cause spot got hot
Stop dat, start dat, get that what
Gotta take that risk and collect that gwop

Hate it or love it
It can get awkward when these girls ask me
"What do you do for a living?"
They see the chain and get intrigued
I say I do music innit
When I touch the mic, I speak my mind
And that's when the truth start spilling
My day one done me dirty
I still rock wid him, I'm too forgiving
But it don't get it twisted
I'll cut man off and I'll keep it moving
I'm anti-social, my people skills, they need improving
You see your own people moving snakey
When they don't feel included
But me and mine are fine if I'm eating food, they're eating too

Hate it or love it
The underdog's on top
Can't see my guys as much

The block got hot and they want that drop
The music ting just popped
Just in time 'cause spot got hot
Stop dat, start dat, get that wop
Gotta take that risk and collect that gwop
