

# Central Cee, Me and You

You ain't gotta worry 'bout nobody else, it's Me and you  
Bought you a bag, now that guy's askin' what I see in you  
Put— Put you on the 'Gram, now they wanna take pics like Me and you  
They wanna trips like Yeah, yeah, yeah, alright  
You ain't gotta worry 'bout nobody else, it's Me and you  
Bought you a bag, now that guy's askin' what I see in you  
Put— Put you on the 'Gram, now they wanna take pics like Me and you  
They wanna trips like Yeah, yeah, yeah, alright

Look, your love's a contagious feelin'  
Real is rare, it's harder to come by, you're an endangered species on top of the food chain  
Don't post where we eat, they're prayin' to see me  
Well educated, good vocab, when I don't understand, she explain the meanin'  
Look, I gotta rearrange the sequence, uh  
You say that you're too young for a baby, I get that, so I just pay the abortion  
I'm protectin' my heart as well, so I understand that you're takin' precaution  
Lonely, like I was raised as an orphan  
I got paper, now they say that I'm important  
Rap boy on a footballer's wage, I'm on the same pay as the players at Dortmund  
Private plane, that's normal  
Pilates class, you can work on your abs, Bahamas trip and snorkel  
Find out how deep is your love  
I won't give you a reason to cut  
Buy you the Porsche, twin-turbo exhaust  
What's mine is yours, not "Me," it's "Us"  
Alright

You ain't gotta worry 'bout nobody else, it's Me and you  
Bought you a bag, now that guy's askin' what I see in you  
Put— Put you on the 'Gram, now they wanna take pics like Me and you  
They wanna trips like Yeah, yeah, yeah, alright

You don't need me, it's true, uh, I guess  
But you'll reap the rewards if you see this through, alright  
Like the fact that you ain't slept with no idiot yutes, uh, trust  
Your girls on WhatsApp bitchin', I beg you just leave that group, huh  
They don't know what we been through  
I'll send you a car, just jump in, if you're busy we can reschedule, uh  
I know that your mum's gonna hear this, so I don't wanna be sexual  
But you make me feel like a young boy again, horny like a teen at school  
Uh, I beg you be reasonable  
Whether it's public or on a low  
My behaviour ain't tolerable, the way that you're acting's honourable  
I don't wanna feel like I'm botherin' you  
So let me know if I invade your space  
When I said that my bitch was gay, I didn't mean that shit in a degradin' way  
Uh, alright

You ain't gotta worry 'bout nobody else, it's Me and you  
Bought you a bag, now that guy's askin' what I see in you  
Put— Put you on the 'Gram, now they wanna take pics like Me and you
