

Central Cee, No Pain

I'm tryna put my whole hood on
If it was them in the same position
Would they put me on? I don't think they would've
They shoulda, they coulda, they woulda
Saying they'll run up, we know they ain't gonna
Gang gonna blow, that's gara
The gang don't lack 'cause the man too para
They saw me and YG doing a mazza

(I-I-I-I love Chris Rich)

Yo
I'm delicate when she got a wig on
I'm pulling her hair anytime she got braids
For life, my family first
I gave mum some any time I got paid, uh
Lucky I never got aids
I fucked them raw every time I got laid, huh
I got the party turnt
I don't party much, nah, I never been tape
I been through some unsettling pain
That shit had me overthinking, uh
Then I got my head in the game
We blend in well, we ain't moving bait
Why them man so loud? They gave it away
Who's up next? You take a guess
Who's the hardest in West? They'll say my name
I'm tryna put my whole hood on

If it was them in the same position
Would they put me on? I don't think they would've
They shoulda, they coulda, they woulda
Saying they'll run up, we know they ain't gonna
Gang gonna blow, that's gara
The gang don't lack 'cause the man too para
They saw me and YG doing a mazza
They just can't hack it, they threw in the spanner

Mechanic, the tool don't fix no vehicle though
This one's for close protection
Have I got bro? That goes without saying
And has he got me? That's a stupid question
Good gestures turn into finessing
All losses turn into a lesson
Business meeting, I came with my villains
I came in a tracky, I don't like denim
