

# Central Cee, Retail Therapy

(You are now listening to Young Chencs)  
(Nastylgia)

Fly uptown when I'm feeling down  
I wanna do retail therapy, uh  
Been with the gang all week  
I need some female energy  
Sucked my soul, I lost my breath  
She got me breathing heavily  
Toxic relationship with my queen  
But me and the T got chemistry  
Told her that I'm a Gemini  
Now she on Google checking the compatibility  
She wanna see if I got the agility  
She wanna see if I got the ability, huh  
I went round three, she want round four  
She killing me, huh  
ADHD, my trigger finger fidgety

My trigger finger fidgeting  
I feel like I need amphetamine  
We had the party turnt  
Offa MDMA and ketamine  
My bro get a box and step on it  
Gang make money off rock, Led Zeppelin  
One call away from a ten and take  
One call and they get to stepping  
The bando hostile  
But if it weren't for the trap house, I'd be pop down  
Of course I woulda made a M on tour last year  
If it weren't for the lockdown  
They wanna fuck now, we got the top down  
What 'bout when we had a beat-down Honda?  
Shout out FK, I had no sponsor  
Most of my team from the West, no thunder

Fly uptown when I'm feeling down  
I wanna do retail therapy, uh  
Been with the gang all week  
I need some female energy  
Sucked my soul, I lost my breath  
She got me breathing heavily  
Toxic relationship with my queen

She wanna see if I got the agility  
She wanna see if I got the ability, huh  
I went round three, she want round four  
She killing me, huh  
ADHD, my trigger finger fidgety

Walk-in wardrobe look like the stock room  
Mum said I'm materialistic  
When you're the boss, that shit will cost  
I'm buying my mumsie a crib for Christmas  
I'm living a movie, but it ain't scripted  
God is my witness, get out my business!  
Back in the day I had one pair of trainers  
I wore that shit till it gave me blisters, huh  
None of my cats had whiskers  
G-check that if his face familiar  
Went OT and I came back skinnier  
Pyrex pot fulla white like Nivea

Timezone getting annoying  
I'm half asleep and getting a call from Australia  
Two tour buses, I'm doing up road  
One clean, one full up of paraphernalia

Fly uptown when I'm feeling down  
(I wanna do retail therapy) Uh
