

Century, Down On This Side

i'm sittin' in my room and waitin'for you to come,
but sometimes things are getting worse
and you are always wrong
you reached in every pore, in every nerve and fibre
i never tasted love like this before

down on this side - and i shouldn't do the same
down on this side - and i shouldn't do the same

i was gettin' more than every boy, waitin'for you,
so easily
i liked the talks, i'll always remember
i never wanted something else

down on this side - and i shouldn't do the same
down on this side - and i shouldn't do the same
down on this side - no i shouldn't do the same
down on this side - no i shouldn't do the same

i complained, you shouldn't do, but you did...

down on this side - and i shouldn't do the same
down on this side - and i shouldn't do the same
down on this side - no i shouldn't do the same
down on this side - no i shouldn't do the same
